

To Health Care Organizations in Nephrology,

We are delighted to inform about the upcoming educational opportunity [Life/2022 membrane symposium](#), a new medical-scientific educational program in [Frankfurt, Germany](#) from [September 6 – 8, 2022](#).

[registration link](#)

About Life/2022 membrane symposium

As part of the continued effort to provide **high-level medical-scientific education** to the nephrology community, the **Life/2022 membrane symposium** will feature an in-depth scientific view of current knowledge, **future trends, and innovations** for dialysis membranes and their potential to **improve clinical outcomes** for patients dependent on dialysis. Delegates will not only participate in expert-led lectures but will also be able to discuss clinical questions and current treatment controversies with the faculty in interactive round tables.

This educational opportunity offers to

- find out about **what differentiates membranes** and how different characteristics may impact clinical outcomes
- gain **insights on dialyzer types**, characteristics, and their related short- and long-term clinical outcomes
- explore how to **impact blood-dialyzer interactions** and prevent related chronic implications for dialysis patients
- discuss with experts new evidence with the potential to **optimize treatment outcomes**
- be introduced to future developments in **dialyzer technology** and their potential clinical advances
- **look behind the scenes** of membrane production and [join a virtual learning tour](#)

The **number of onsite participants is limited** and will be assigned on a first-come-first-served basis. Therefore, the first 90 registrations with full written documentation (e.g. country-specific employer approval form) are welcome to participate in this symposium. To register click on the button below or follow this link: <https://www.nephrologycampus.com/membranesymposium/>.

Please distribute and share the information about this educational opportunity with all your members and colleagues in your professional network and nephrology community.

If you have any further questions, please do not hesitate to contact support@nephrologycampus.com. We look forward to seeing you in September!

Sincerely yours,

Prof. Dr. Christoph Wanner

University Hospital Würzburg, Germany
Life/2022 chairman

Prof. Dr. Peter Stenvinkel

Karolinska Institutet Stockholm, Sweden
Life/2022 chairman
